“...the ‘game’ of being a leader today isn’t at all what we as kids wanted it to be – the last person standing. Rather, it’s about helping others stand with us.”

## This Issue’s Power Point

# Follow the Leader

If you don’t remember the old children’s game, “follow the leader,” *Wikipedia* reminds us of the “rules.” First a leader or “head of the line” is chosen. Then the children all line up *behind the leader*. The leader then moves around and all the children have to mimic the leader’s actions. Any players who fail to follow, or do exactly what the leader does, are out of the game. When only one person other than the leader remains, that player becomes the leader, and the game begins again...

As a child, I can still remember playing this game in school. It was fun. However, as I grew older, and maybe just a little wiser, it occurred to me that being a leader isn’t necessarily about having others follow your every move. Rather, it’s about making decisions and doing things in life—at work and at home – that positively impacts someone else, and that encourages and motivates them to do something similar for others.

In today’s workplace, I think most of us are looking for leaders like this – individuals who take it upon themselves to make the best of a work assignment by giving it their “all.” Maybe it’s someone who can master a new software program, reach out to others who need a helping hand, or who take the time to communicate with others in ways that help the person they are working with become the best they can be. These are the things that may not always be easy, but ultimately make an impact on others and organizations as a whole.

So, when you think about it, the “game” of being a leader today isn’t at all what we as kids wanted it to be – the last person standing. Rather, **it’s about helping others stand with us.**

Hellen Keller said, “*One can never consent to creep when one feels an impulse to soar.*” At the Center, we believe this too. That’s why we’re constantly reinventing ourselves by offering new training classes that can help you in different areas of your work and life.

For example, in this calendar you’ll learn about new programs that include *Talk Like a Leader* and *Women and Leadership*. We’ll also be offering programs that are truly for the leader in everyone that include, *People Skills for Public People*, *Resilience: How to Keep Going when the Going Gets Tough*, *Influencing UP!*, and *How to Make Yourself Indispensable*.

I hope you’ll consider attending some of these programs or others we’re offering to see firsthand how they can help you establish yourself as a leader, and stand with others to help your organization become extraordinary.

I wish you all the best on your professional journey.

# Resilience

How to Keep Going When the Going Gets Tough

Conflict, change, and stress are a regular part of everyday organizational life. The key to employee survival is resilience, and the ability to bounce back after adversity. Being resilient doesn't prevent tough challenges from happening, but it does provide individuals with the strength and wherewithal to recover and move on time and time again.

**Developing resilience is a lot like engineering a building to withstand an earthquake. It requires a solid foundation and a flexible structure that won't crack or crumble under pressure.**

Resilience is the ability to cope with change, and it is a large predictor of our success at work, as well as our overall satisfaction with life. It gives us the ability to adapt and "bounce back" in difficult circumstances in order to reach our goals. In human terms, it translates into self-esteem, connections with others, mental agility, and effective coping strategies. And, in today's rapidly changing world, it is an essential skill for both employees and supervisors.

This **4-hour** program offers individuals a blueprint for increasing anyone's resilience at work, and elsewhere. Aimed at developing confidence, support networks, achievable goals, and stress management skills, this program will help you take charge of the challenges in your life, and help others to do the same.

## PROGRAM OBJECTIVES

Successful completion of this program will increase your ability to:

- ☐ Bounce back from adversity
- ☐ Build your self-esteem as a foundation of resilience
- ☐ Make and maintain connections to build resilience
- ☐ Accept and embrace change
- ☐ Use flexible thinking to overcome obstacles
- ☐ Implement stress management and relaxation strategies to maintain resilience

# Talk Like a Leader

What Every Employee *Needs* to Hear

**September 24**

\$125

Team Work & Verbal Communication

The average person speaks up to 16,000 words per day. As a leader, are your words always meaningful and on target? We all know that the best organizations – and the most enthusiastic leaders – excel at communicating with their employees. But when you are leading others, how do you know which messages are most important to communicate?

Ultimately, there are a multitude of specific messages to send, but the good news is that they can be organized into four general categories:

1. "I have a vision for the organization."
2. "I have the skills to carry out that vision."
3. "I know and care about you."
4. "I want to help you."

**This 4-hour program will empower you to:**

- **Inspire enthusiasm** in employees by expressing passion, using inclusive phrases, indicating personal benefits, and showing support.
- **Increase productivity and concentration** by connecting individual performance with organizational and business growth and success.
- **Minimize miscommunication and delays in productivity** by speaking and acting decisively.
- **Communicate bad news with sincerity** in a way that reduces negative backlash and encourages understanding.
- **Build organizational bench strength** by taking accountability for your actions and asking probing questions.
- **Improve working relationships and mutual respect** by remaining attentive to employees' personal circumstances, building trust, and showing sincerity.

**Descriptions on the following pages are provided for some of our newest and most requested leadership and communication programs offered this quarter.**

We all know what anger is, and we've all felt it – whether as a fleeting annoyance or as full-fledged rage. Anger is a normal, human emotion, but it can be an **INCREDIBLY DAMAGING** force.

# **ANGER**

## **Management**

**August 20**  
**\$125, Flexibility & Mediating**

When anger gets out of control and turns destructive, it can lead to problems—problems at work, in your personal relationships, and in the overall quality of your life. And it can make you feel as though you're at the mercy of an unpredictable and powerful emotion. Because everyone experiences anger, it is important to have constructive approaches to manage it effectively.

This 1-day workshop will provide insights to help learners identify their own anger triggers, and provide ways to control their anger, and possibly the anger of others, in tense situations.

### **This program will help you:**

- Explore common anger myths and their factual refutations.
- Consider the helpful and unhelpful ways of dealing with anger.
- Develop skills and techniques to make disagreements constructive, including effective negotiation and solution-building.
- Reflect on individual "hot buttons" that lead to anger responses.
- Learn how to respond to anger-provoking situations.
- Understand the energy curve and how it can help in responding to someone else's anger.
- Learn and practice anger de-escalation techniques.

# **Resolving Conflict At Work**

**August 14**  
**\$95, Problem Solving & Self-Direction**

### **Here's the good news: You can work with anyone!**

They may not be your best friend, but you can find a way to work with them. Your work world consists of a network of relationships. For most people, the ideal network would be free from conflict, but, as many have discovered, working in a team can be similar to being with your family—sometimes you treat the people closest to you with the least amount of effort and respect, and that can lead to unnecessary conflict. This **4-hour program** will focus on ways to prevent conflict from occurring, provide strategies you can use to build and enhance team relationships, stress the use of direct communication, and offer strategies to resolve conflict productively if and when it occurs.

### **This program will increase your knowledge and ability to:**

- Positively manage business relationships to avoid unnecessary conflict.
- Use effective conflict resolution steps when conflict occurs.
- Deal with difficult team members in ways that increase productivity and result in positive working relationships.

No matter what position you hold in your organization, to get things done you must positively influence others—direct reports, colleagues, managers, clients, suppliers—both inside and outside, and up and down the chain of command. We acquire this influence by gaining buy-in for our ideas, securing cooperation, aligning agendas, and solidifying and maintaining action.

People who demonstrate positive influence fulfill their personal objectives while maintaining and nurturing important work relationships. That may sound simple, but in practice it can be extremely challenging.

This 1-day program will help you grow your own influence when managing your boss. You will receive practical skills to assess workplace situations and propose solutions that enhance your relationship with those in authority, and develop personal strategic initiatives to get your ideas heard and acted upon.

**September 16**

**\$125**

**Influencing**

**INFLUENCING  
UP**

**Participants will:**

- Discuss the benefits of influencing up in today's workplace.
- Review a model for influencing up without authority.
- Identify and discuss the "Push and Pull" skills required for influencing up.

**How Full Is Your Bucket?**

**Chesterfield, August 4, \$95**

*Jefferson City, July 22, \$95*

*Accountability & Self-Direction*

**Whether you are a manager, supervisor or employee, this program filled with discoveries, powerful strategies and engaging stories, will take a refreshing look at the way we behave at work, and inspire lasting changes for you and the people you work with EVERYDAY!**

This highly interactive 4-hour program based on the #1 New York Times and Business Week bestseller, *How Full Is Your Bucket?* reveals how even the briefest interactions can affect working relationships, productivity, health and longevity. Grounded in years of research, this program will show you how to greatly increase the positive moments in your life and the life of those you work with.

**It's Okay to Be the Boss**

**Lee's Summit, September 9, \$95**

*Jefferson City, July 30, \$95*

*Accountability & Perceptiveness*

**"Follow any problem in business...bad service, missed deadlines...whatever. Everything is somebody's job and everyone has a boss. Everything leads back to the boss."**

Based on the bestselling book, *"It's Okay to be the Boss,"* this 4-hour program is a new call to action for managers and supervisors. The program will engage learners in dispelling 7 myths that can potentially create a current of under-management; and challenge managers to re-engage with their employees by spelling out expectations, providing specific guidelines, correcting failure quickly, and rewarding success even more quickly. In essence, this program presents a clear-cut plan to become the manager who can help the work team accomplish organizational goals each day to the next.

**Leadership Styles and Conflict Management**

*September 2, \$125*

*Perceptiveness*

This 1-day workshop will use a survey and other discovery tools to help learners better determine their own leadership style and the communication style of other team members. These methods will provide insights in how to make better work decisions, what to use as the basis for those decisions, how to manage and gauge interactions with others—and how to effectively resolve conflicts.

**Managing Your Emotions at Work**

*September 30, \$95*

*Flexibility & Self-Direction*

Emotions guide our behavior, sometimes productively and sometimes unproductively. Unfortunately, when emotions are not expressed constructively, they can drain your energy and damage relationships. This 4-hour program will provide the skills and strategies to help you manage your emotions in ways that increase your effectiveness at work, and enhance your interpersonal communication with co-workers, customers and peers.

**Motivation in State Government**

*July 9, \$95*

*Workforce Management*

**September 17**

**\$95, Flexibility & Self-Direction**

While every employee has a valuable role to play in the success of any organization or business, today's workplace requires employees to readily take on a wide range of tasks to accommodate frequent organizational changes and remain productive. Flexibility is a long-standing and valuable trait in the workplace, and an increasingly necessary element with today's fast-paced, technical work environment. With new innovations, there are new tasks to perform and new roles to assume.

Most every workplace is a conglomeration of individuals who possess different values, orientations and skill sets. As a result, it is not only important to be able to take initiative and tackle new challenges when needed, but also to communicate effectively among various agencies and businesses, other co-workers, and customers.

This 4-hour program will provide the skills needed to help employees adapt to—and embrace—situational changes at work. You'll learn how to thrive under pressure and expand your career opportunities by taking initiative, effectively resolving problems, sharing your knowledge, and being an overall positive influence at work.

**Learning Points:**

- Take ownership of your responsibilities and results.
- Take initiative to go above and beyond what is expected of you.
- Expand your sphere of influence.
- Perform well under pressure.
- Adapt to changing situations.
- Be someone others want to work with.
- Help others improve their performance.
- Learn to be a "replaceable" by sharing your knowledge and working through change to become a positive influence.

**and more...**

Where do good ideas come from?  
Do they just fall from the sky?

Do you have to wait for inspiration to strike like lightning? Or can you learn to generate and capture new innovative ways to improve results and expand value? This **full-day** highly interactive workshop will show you how to collect and combine a variety of ideas to produce new ways of working. You will practice divergent thinking techniques which have been proven to increase creativity and the capacity to solve problems. You will learn methods for gathering valuable feedback from customers and co-workers which you can apply to increase your own efficiency and effectiveness. And you will leave with ways to combine seemingly unrelated points of view to create new concepts, find innovative approaches, and unlock the potential lying dormant in your organization. There is no substitute for a better way of doing things, but finding and applying them should not be a painful process. Galileo said, "No man teaches any other man, he only helps him find the answer within himself." Attending this workshop will enable you to find new ideas all around you, and then use those ideas to meet the increasingly rigorous challenges of today's stringent work environment, while having fun doing it!

Strengthening **Interpersonal**  
Communication

**September 9**

**\$125, Workforce Management**

In today's environment of "doing more with less," employees in almost every business are being asked to juggle multiple priorities and complete tasks while simultaneously providing increasingly higher levels of service. In the midst of increased workloads, interruptions, day-to-day stressors and the need to "just get the job done," maintaining optimum levels of courtesy and professionalism can be challenging at best.

Regardless of what else may be going on, many workplace professionals must communicate regularly with their co-workers, management and a variety of internal and external customers on any number of issues. Their results—and the organization's success—depend on their ability to communicate in a professional and persuasive manner while cultivating trust and confidence.

This **full-day** program will equip learners with the skills they need to handle the important job of customer service; and confidently represent the organization in their role as the "first line" of contact customers may interact with each day.

## Participants will learn how to:

- ▷ Describe how quality customer relations affect their personal bottom line
- ▷ Describe behaviors that make positive first impressions and build rapport
- ▷ Give examples of the *Four Levels of Conversation*
- ▷ Demonstrate effective body language and voice control when dealing with customers
- ▷ Describe characteristics and behaviors which typify good or bad customer relationships
- ▷ Identify specific customer situations which may need special attention
- ▷ Apply strategies and techniques to deal with difficult customers in a positive manner

## Problem Solving Skills for Team Leaders

August 5, \$95  
Problem Solving

Problems come in every size imaginable and often arrive when you least expect them. How an organization responds to the unexpected can make a big difference in its delivery of products and services. Consequently, the ability to solve problems, whether individually or in a team, is an important skill for today's leaders. This full day workshop helps leaders develop their ability to recognize and solve problems through their own or group efforts in a variety of ways. Participants will discover how to combine problem-solving techniques with their natural creativity, and put both to work using the "creativity starters" presented in the class.

## Project Management

July 2, \$95  
Accountability & Planning

This 1-day introductory workshop will introduce learners to a tools and strategies that can be used to facilitate short-term projects to a successful completion. Learners will explore the phases of project management and what they can do to effectively plan, implement and evaluate future projects.

## SKILLS TO HANDLE crucial conversations

July 15, \$125  
Teamwork & Verbal Communication

### Discover how to communicate best...when it matters most

Based on the book, "**Crucial Conversations**," this 1-day program provides the tools we all need to handle difficult and important interactions that happen to everyone and affect our life. Learn to share information safely, get ideas and feelings out in the open, and maintain high levels of respect—all without causing resistance or resentment. Discover a model that truly helps individuals, teams and organizations get unstuck and achieve breakthrough results.

## Supervisory Liability

July 8, \$95  
Accountability & Technical Knowledge

Managers are required to make consistent, informed decisions when addressing a broad range of employee issues. Unfortunately, even with the best intentions, errors in behavior or reaction while attempting to resolve an issue can result in misunderstanding and potential liability issues. Safe, informed decisions result in behaviors that are defensible in any legal challenge to them. That's why effective managers should understand the responsibility of their roles, and be aware of the implications involved in ignoring or not understanding the law. This 1-day program will discuss and review the legal responsibility or liability of management in government. EEOC, landmark cases, civil liabilities, employment liability, frivolous lawsuits, negligence and internal litigation are among the many topics discussed.

## Positive Approaches To Resolving Performance and Conduct Problems

Almost every organization has a process in place to establish goals and objectives for employees – unfortunately, when the situation gets sticky, and employees aren't performing as planned, managers can struggle with the best way to handle the situation effectively.

Most performance problems can be resolved through early and effective communication between an employer and the employee. When an employee's performance first starts to slip, they are more likely to be open to discussing what needs to be done to improve their work. This **4-hour program** will help managers recognize employee performance problems and give them skills to address the problem effectively.

### Successful completion of this program will increase your knowledge and ability to:

- Define and identify problem employees or nonperformers.
- Assess and confront problem employee behaviors before more drastic measures need to be taken.
- Conduct a successful confrontation session.
- Develop and communicate standards that will ensure high quality performance.
- Create a plan for employee "buy-in" and determine what helps motivate your employees.
- Carry out disciplinary sessions that work for both you and your employees.

## WOMEN AND LEADERSHIP

September 23  
\$125, Self-Direction & Decisiveness

Working through barriers and biases

According to a study by *Caliper*, female leaders are just as persuasive, assertive, driven to get things done, and willing to take risks as their male counterparts, possibly more. Additionally, female leaders generally excel at being more empathetic and flexible, and have strong interpersonal skills.

Still, in many places, the percentage of women in leadership roles continues to be low, and suggests that women face a variety of challenges in their journey to obtain leadership positions. This **1-day program** will examine many of these challenges, and look at how women can maximize their strengths and build their skills to become effective leaders in any organization.

### Key Topics Covered

- Identifying organizational, societal, and self-imposed challenges.
- Developing strategic relationships by building and personal networks.
- Learning how to exhibit executive presence.
- Understanding how to remain poised and composed in stressful or negative situations.
- Developing the ability to think on your feet.
- Establishing influence and tactics for effective negotiation.
- Honing your ability to build and maintain strong teams.
- Implementing a plan to target the leadership skills you most want to improve.
